

Miller Hyatt

Augusta, GA • 864-884-9985 • hyattmiller@gmail.com • linkedin.com/in/millerhyatt • https://www.millerhyattwx.com/

Professional Summary

Broadcast meteorologist with 5 years of on-air experience across diverse U.S. markets. Specializes in severe weather communication, AR-enhanced storytelling, and digital audience growth. Proven leader during high-impact weather events, delivering clear, viewer-focused forecasts across television, podcasting, and social platforms.

WORK EXPERIENCE

Meteorologist **01/2023 - Present**

WJBF NewsChannel 6 • Augusta, GA

- Deliver daily on-air forecasts and lead severe weather coverage for the CSRA, including VIPIR 6 Alert Days.
- Serve as primary fill-in for Morning and Chief Meteorologists, demonstrating trusted on-air leadership.
- Produce AR and 3D weather graphics using Baron Lynx and report live from the field.
- Co-launched and co-host the “Partly Cloudy Podcast.”
- Increased Facebook engagement 700% during Hurricane Helene through timely, high-impact weather communication.

Weekend Meteorologist/Reporter **05/2021 - 01/2023**

WXOW News 19 • La Crosse, WI

- Delivered weekend on-air forecasts and filled in across dayparts, including sister station WQOW.
- Covered breaking and severe weather with strong ad-libbing and live reporting skills.
- Analyzed data and built broadcast-ready graphics using The Weather Company (WSI Max).
- Expanded forecast reach through digital and social media content.

Campus Connect Forecaster **08/2019 - 04/2021**

Campus Connect • Starkville, MS

- Produced hyper-local weather segments for Northeast Mississippi, translating complex atmospheric patterns.
- Contributed to station social media growth by delivering consistent, audience-focused weather updates and community engagement content.

Digital News Intern **06/2020 - 08/2020**

KNBC • Los Angeles, CA

- Strategically expanded NBC4 Los Angeles’ digital reach in the nation’s 2nd-largest media market.
- Produced high-impact digital news and weather content utilizing advanced SEO optimization.
- Supported reporters through in-depth research, interview assistance, and rapid video editing.

Student News Reporter/Weather Anchor **08/2015 - 12/2017**

SGTV • University of South Carolina

- Anchored live weather segments while developing foundational broadcast meteorology skills.
- Produced short films and news stories, strengthening video production and on-air camera presence.
- Enhanced community engagement through on-location interviews and active use of social media.

Planning Intern **05/2017 - 08/2017**

Greenville County • Greenville, SC

- Supported long-range planning initiatives, including the Greenville County Comprehensive Plan and neighborhood plans focused on sustainable growth.
- Researched and drafted policy language for affordable housing initiatives, including the Accessory Dwelling Unit (ADU) ordinance.

- Utilized ArcGIS and county mapping systems to analyze land records and create community maps.
- Assisted with public meetings and documented community input on development projects.
